

Paid Internship Opportunities with SavATree!

SavATree has internship opportunities available for the summer of **2015** for students currently enrolled in Arboriculture, Forestry, Horticulture, Turf and related majors/programs. We are an industry leader in environmentally sensible plant health care, general tree care, professional lawn care and turf management for residential, commercial, institutional, government and historic properties. You will be joining a healthy, growing company, working with professionals providing premier arboricultural services including tree disease diagnosis, insect treatments, safety inspection, natural and organic lawn care and tree pruning. You will also have the opportunity to work on some of the most beautiful landscapes in the country from one of our office locations throughout the Chicagoland, Northeast and Mid-Atlantic regions.

Our goal is to offer interns a well-rounded practical experience to supplement what you've learned in the classroom during the school year. You will work side by side with our professionals in as many different facets of our business as is practical. If your school has any specific requirements for your internship, we'll work with you to try to tailor our program to ensure those requirements are met. If there is a particular aspect of our business (such as turf care or plant health care) that is of special interest to you, we'll try to get you more time in that service line and with our experts.

Your experience will include:

- Assisting the plant healthcare and/or lawn care specialists, including time on a client's property performing applications and an introduction to the equipment used to diagnose and treat customer properties.
- Working with tree crews typically involved in pruning, bracing, cabling, storm-damage clean up, and a variety of other tasks. We insist on the highest degree of safety in all we do, so we'll try to give you as broad exposure to our work and equipment and its use as we can without putting you, or our team, in harm's way.
- Shadowing an arborist on sales calls and customer visits.
- Time in the office so you have a basic understanding of the operations and office management functions that are so vital to the success of any business.

SavATree has 25 branches across 10 states in the following locations: **MA:** Beverly, Lincoln, Mashpee; **CT:** Windsor, Old Saybrook, Norwalk, Danbury; **NY:** Buchanan, Bedford Hills, Mamaroneck, Brookville, Southampton; **NJ:** Wyckoff, Basking Ridge, Mountainside, Hamilton; **PA:** Conshohocken, Newton; **MD:** Rockville; **VA:** Springfield, **IL:** Warrenville, Barrington, Northbrook, **MN:** Hopkins, **WI:** Roberts.

If you are interested in applying for an internship, please send your resume, your desired location and any additional requirements to careers@savatree.com for consideration.

When applying please let us know the branch you are most interested in and a second choice if possible. **Housing assistance discussed on an individual basis*
